General Information

All entertainment services provided by telephony or telegraphy or telephone or telegraph services are subject to state and local sales tax. All information services provided by telephony or telegraphy or telephone or telegraph are also subject to tax, except when the information would not be taxable if sold in written form, e.g., because it is personal or individual in nature, and is not or may not be substantially incorporated into reports furnished to others. Providers of nontaxable services who do not bill their customers directly must give this form, Form ST-930, to whomever will be doing the billing.

Only vendors registered to collect sales tax or organizations that are specifically exempt under section 1116(a) of the New York State Tax Law may issue this sales tax exemption certification.

This certificate covers only the exemption for services taxed under 1105(c)(9)(i.e., the 5% state sales tax imposed on services received aurally plus the 4% state and any local tax). It may not be used to cover telephony and telegraphy or telephone and telegraph services taxed under 1105(b) or written information services taxed under 1105(c)(1).

To be valid, this certificate must be completed in its entirety. The name and address of both the billing agent and the service provider, including the zip code, must be typed or printed in the spaces indicated.
